# Exactly How Things Are Changing

- Humans are **evolving** to a new level and finally stepping into our higher potential
- 2012 was end of “old” age, beginning of “new age” of human experience (Mayan Calendar)
- End of Age of Pisces; beginning of Age of Aquarius; 5000+ year cycles
- Always turbulence and chaos when things change

# 3 Major Evolutionary Shifts

- **Shift #1 -- From fear and lack-based to Abundance-based Consciousness**
- Radical shift for humanity
- True abundance comes from God/Source/spirit, etc.; it's not material
- Already underway, e.g., sweep of The Secret and growth of LOA awareness and use
- Unprecedented shift in consciousness

# Impacts of Shift #1

- New TRUST that we are divinely supported and we already have everything we need
- Feeling-based choices, not fear-based
- Emotional Waves of Solar Plexus center will stabilize – not so volatile anymore
- Nature of relationships will change, especially bonding & mating ... not war-like tribal
- We won't struggle with being different

# 3 Major Evolutionary Shifts

- **Shift #2 – Self-oriented desire and hunger for new experiences will no longer drive us**
- Will still have desires but now rooted in Abundance, knowing there is always enough
- Sexuality, mating and war energies will now flow through channel of peace, harmony, win-win agreements, and strong communities

# Impacts of Shift #2

- Values-based businesses that do the “right thing” without enforcement; businesses will ensure that everyone has enough
- A sustainable economy rooted in love and caring, not competition and scarcity
- Fear-based marketing will no longer work!
- Sustainable era of peace, cooperation, and abundance for all will finally be possible

# 3 Major Evolutionary Shifts

- **Shift #3 – The nature of “logic” will change; our connection to animal world will shift**
- Pressure to “prove” and dominance of logical left-brained thinking will go away
- Final delineation of Humankind out of the animal kingdom; no longer dominance-based
- Will improve our relationship with animals

# Impacts of Shift #3

- Education systems and science will shift away from logic; include holistic, right-brain thinking
- People will be “bi-laterally dominant” – integrated and balanced!
- Will shift how we eat; won’t need to eat animals to keep us energetically connected to them; will improve our relationship to them
- Will further change our global economy, energy systems, governments, child rearing, etc.

# Review of the 3 Major Shifts

- **Shift #1 -- From fear and lack-based to Abundance-based Consciousness**
- **Shift #2 – Self-oriented desire and hunger for new experiences will no longer drive us**
- **Shift #3 – The nature of “logic” will change; our connection to animal world will shift**
